

BUON VIAGGIO!

Public Transportation – A Practical Alternative

One of the problems facing Americans living in Naples, Support Site and surrounding areas is how to get around conveniently and economically, without having to drive in the traffic and face the problem of finding a parking space. Fortunately, there is a well-developed network of public transportation operating throughout the week, including Sundays.

We are providing **websites** on the different transportation systems in order to allow travelers to receive updated information. While some are in English, others are only in Italian.

The autostrada traffic signs are international.

It can be requested through the Punto Blu offices, on Autostrada and Tangenziale. In order to request one you need to have an Italian bank account.

Viacard is a magnetic card that allows you to pay the toll through the Viacard lanes. It can be purchased at Punto Blu offices on the Autostrada and Tangenziale and, on base, at the Mini Mart.
